ULTIMATE BILLIARDS PLATFORM

Android User Manual - Checkpoint #075

Page-by-page button and feature guide for the current Android build. This PDF is designed to be linked from the UBP website.

Dynamic content such as sponsors, training resources, UBP appearances, and livestreams can change without changing the app or this manual.

Contents

1. Getting Started
2. Home
3. Practice
4. Ghost Match
5. High Run
6. Events
7. Looking for Action
8. Team Message Board
9. Players
10. Find a Coach
11. Find a League
12. Tournament History
13. Player vs. Player
14. Improve Your Game
15. Official UBP Sponsors
16. How UBP Gives Back
17. Live Pool
18. Help Shape UBP
19. Profile
20. Account / Premier

1. Getting Started

• Sign in to UBP, then open **Profile** and complete your player information. UBP uses your account for cloud-synced information and Premier access.

• Bottom navigation: **Home**, **Practice**, **Events**, **Players**, and **Profile**.

2. Home

• **Start Practice** opens Practice. **Record Ghost Match** opens Ghost scoring.

• The top stat cards show Practice time, Games, Ghost Wins, and Straight Pool High Run.

• **Recent Activity** shows recently saved practice, Ghost matches, and high runs.

• ■ **High Run** - Record straight-pool run.

• ■ **Events** - Find tournaments.

• ■ **Looking for Action** - Find or post action.

• ■ **Team Message Board** - Your team communication.

• ■ **Find a Coach** - Find pool instructors.

• ■ **Find a League** - Find leagues near you.

• ■ **Tournament History** - Track your tournament results.

• ■ **Ghost Statistics** - Measure progress against the Ghost.

• ■■ **Player vs. Player** - Head-to-head results.

• ■ **Improve Your Game** - Drills, videos, PDFs & training.

• ■ **Official UBP Sponsors** - Businesses supporting UBP.

• ❤■ **How UBP Gives Back** - See where UBP is going & our mission.

• ■ **Live Pool** - Watch current & upcoming livestreams.

• ■ **Help Shape UBP** - Tell us what UBP should build next.

3. Practice

• Choose the practice type before starting. Drills can use a custom drill name; Straight Pool can record a high run.

• **Start** starts the timer. **Pause/Resume** pauses or resumes it. **Save** ends and saves the session.

• Timer mode can be open-ended or countdown. Countdown accepts 1-480 minutes.

• Breaking practice records individual break attempts and results.

• Practice History supports **Edit** and **Delete**. Edit can change start/end time; Drills can change the drill name; Straight Pool can change high run.

• Manual practice entry lets you record a session that was not timed live.

4. Ghost Match

• Choose the game and Ghost format, then start the match. Score the player and Ghost as racks are completed. UBP stops at the selected target and saves the winner and score.

• **Ghost Statistics** on Home reviews performance over time.

5. High Run

• Tap **High Run** to record a Straight Pool high run. Saved high runs feed the Home summary and Straight Pool statistics.

6. Events

• Use State, County, and City filters to find tournaments.

• **Post Tournament** opens fields for tournament name, pool hall, address, location, date/time, repeat setting, game, rules, Calcutta, entry fee, race/format, and details. Posting requires Premier.

• Upcoming league matches can be posted with league, teams, game, venue, date/time, format, and details.

7. Looking for Action

• Shows active player posts. **+ Post Action** creates a post with title, game, city/area, when, and details.

8. Team Message Board

• Open or create a team board for team communication. Team boards are intended for team members rather than public chat.

9. Players

• Enter at least two characters of a player name/username. Location filters are optional and can narrow by State, County, and City.

• Player cards support favorites and supported player actions. Report and Block tools are available. Free accounts have a monthly player-search limit.

10. Find a Coach

• Find instructors by location and specialty. Premier users can post/manage a coach listing with name, specialty, lesson price, contact, website, location, and details.

11. Find a League

• Find leagues/teams by location. Supported users can create league listings through the league form.

12. Tournament History

• Review saved tournament results and add results using the tournament-result form. These records feed performance reporting.

13. Player vs. Player

• Track head-to-head matches by opponent. Choose game, race/format, and supported match information. One Pocket has its own target scoring flow.

• Saved matches build opponent-specific statistics. Player vs. Player is a Premier feature.

14. Improve Your Game

• Opens UBP-curated training resources such as drills, instructional material, Ghost information, videos, PDFs, and useful links. Content can be updated without a new app release.

15. Official UBP Sponsors

• Shows businesses supporting UBP. Sponsor entries can include logo, information, and a link to the sponsor's website.

16. How UBP Gives Back

• **Come See Us At...** lists upcoming UBP appearances with location, dates, and an event link when available.

• **Why UBP Gives Back** explains UBP's mission to support the billiards community as the platform grows.

17. Live Pool

• Shows current/upcoming pool livestreams. **Watch Live** opens the posted broadcast link.

18. Help Shape UBP

• Use this page to suggest future features and improvements.

• **Find UBP on Facebook** opens the configured Facebook destination. **Email UBP** starts a feature-suggestion email to **ultimatebilliardplatform@gmail.com**.

19. Profile

• Edit display name, State, County, City, league, team, 8-ball skill, 9-ball skill, Fargo rating, and stats privacy. **Save Profile** saves and cloud-syncs when connected.

• Profile also links to activity, tournament history, skill/progress reports, game statistics, Account, Notification Preferences, coach reports, and other player tools.

• **Clear Selected Data** removes only selected categories after confirmation. **Clear Everything & Start Over** is destructive and requires additional confirmation.

20. Account / Premier

• UBP supports Free and Premier access. Some advanced tools and posting functions require Premier.

• Android purchase and restore controls are in the Account area. Complimentary/admin-granted Premier is recognized separately from normal paid access when the entitlement is available.
